INDEX TO VOLUME 89

Names of contributors and of authors of books reviewed are printed in CAPITALS. Names of new genera, species, varieties, forms and combinations are printed in **bold face.** Numbers in **bold face** refer to pages where such a name is accompanied by a description or illustration. Numbers in *italic* refer to pages on which a name is listed as a synonym. Page number for a plant entity is given for only the first time it appears in any one article.
